

Welcome to the
Microsoft Education Partner
Solutions Brochure!

An introduction from the Microsoft Education team

We live in a time of great change and tremendous educational opportunities. Tomorrow's leaders are sitting in the classrooms of today and we need to provide better tools that give every student the chance to learn and to help educators and administrators to amplify their creativity. Creating more efficient classrooms and maximizing learning time, enables educators to teach students, the skills they need for a rapidly transforming future.

Giving teachers better tools creates better learning outcomes for all students and helps them save time directing that additional time and focus to bringing lessons to life. We do it with affordable technology that works across a whole school ecosystem.

Working with our partners, Microsoft Education can bring even more choice that can help engage students and support educators in the classroom providing education analytics to help personalize learning.

We invite you to learn more about some of these solutions by following the links in the brochure or visit Microsoft.com/education for more information on [Microsoft Education](#).

Accessibility:

Reach students through a range of apps that enable every student to reach their full potential.

Application	Description	Technology	Grade	Get App
	ClaroSpeak ClaroSpeak uses text-to-speech to read back PDF files, Word documents, or any of your own writing. Anyone can access documents and books, and check their work for errors.		<div>PRE-KK-56-89-12HI-ED</div>	
	GraphoGame With special attention paid to dyslexia, GraphoGame teaches children how to read and spell letters, syllables and words through research done in collaboration with the University of Cambridge Centre for Neuroscience in Education. Through rhymes and sounds and engaging play, children can “improve letter knowledge, phonological awareness, reading speed, and overall confidence in literacy!”		<div>PRE-KK-56-89-12HI-ED</div>	
	KNFB Reader KNFB Reader for Windows 10 is the world’s best solution for enabling blind and low-vision individuals to quickly and easily access the content of printed materials anywhere, anytime. It takes a photo of any text and instantly reads it aloud. It’s as easy as “point, shoot, and read.”		<div>PRE-KK-56-89-12HI-ED</div>	
	Read&Write Discover personalized support to make documents and web pages more accessible. Read&Write’s support toolbar helps everyone engage with digital content in a way that suits their own learning style.		<div>PRE-KK-56-89-12HI-ED</div>	
	ReadSpeaker SpeakUp (English) ReadSpeaker speakUp is an easy-to-use app that enables you to listen to written text using natural-sounding synthetic voices. It enables you to have readily available very high-quality text to speech to help you access written content and enhance your learning skills.		<div>PRE-KK-56-89-12HI-ED</div>	
	Sign 4 Me Sign 4 Me is the ULTIMATE tool for learning sign language. The ONLY app that provides sign language instruction in 3D! Our 3D character can be zoomed in or out and rotated to give you the best vantage point for every sign. YOU control the placement of the character – not us! No other product lets you do this!		<div>PRE-KK-56-89-12HI-ED</div>	
	Snap + Core First Snap+Core First is a symbol-based communication app for non-verbal learners seeking to learn language and achieve literacy and independence as communicators. Keeps users engaged as they grow on their communication journey.		<div>PRE-KK-56-89-12HI-ED</div>	
	Special KiDS KiDS (Key Information Data System) allows authorized professionals to centralize, manage and share information regarding students they are involved with. Student background information, consent forms, behavioral observations, reports and recommendations are all available at any time.		<div>PRE-KK-56-89-12HI-ED</div>	
	Speech Central Lite Speech Central Lite can read pages aloud and create a speech or an MP3 file just by sharing an internet page or pasting its link from any of the languages that support text to speech on your device (for a PC there are 17 of them, for other devices 7). For people with visual impairments and related disabilities, this can be a great assistive technology.		<div>PRE-KK-56-89-12HI-ED</div>	
	TalkTablet - AAC/Speech TalkTablet is a AAC speech/communication solution for people who have difficulty communicating as a result of autism, aphasia, Down Syndrome, stroke, laryngectomy, or any other condition.		<div>PRE-KK-56-89-12HI-ED</div>
